

ABOUT US

We specialize in private and semi-private courses. We set up our courses around the needs of the student. We will work with your schedule and can accommodate almost any special request.

The instructors at PSI offer a wide range of classes from basic Open Water Diver all the way through technical diving. We offer courses from PADI, SDI and TDI.

Whether you are a novice or a highly trained technical diver looking to further your diving education we can provide you with the quality training a diver needs to succeed. Sign up for one of our pre-scheduled courses, or call us to arrange your own course dates.

All courses can be scheduled upon request.

We dive year-round locally, and travel to dive destinations every few months.
